# SK-01

Industrial Tank Management System

Developed for stainless steel tank systems with 7-segment digital control unit. Provides full automation with temperature monitoring, cooling control and mixer management. Ideal for food and industrial applications.

● Temperature & Level Monitoring

● Mixer Control

● Cooling Control

● 7 Segment Display

**TECHNICAL SPECIFICATIONS**

Loadcell Input	2mV/V, 3mV/V
Mixer Output	Relay control
Cooling Output	Relay control
Display	Dual digital display
Connection	Wi-Fi mobile app (Optional)
Application	Stainless steel tank systems

**TYPICAL APPLICATION**
